If you have any additional questions, please call Carrie Mahlum or Wanda Plachecki at 786-1400.

FREQUENTLY ASKED QUESTIONS

Whispering Pines RCAC

What is a Residential Care Apartment Complex?

A Residential Care Apartment Complex (RCAC) is a form of housing with services available to seniors in Wisconsin. The Whispering Pines RCAC will have many services available, including:

- assistance with care such as bathing, dressing, grooming
- nursing services such as medication reminders and set-up
- one community noon meal
- help with laundry and housekeeping

Lakeview will provide these services to tenants at Whispering Pines, as needed and/or requested. The LaCrosse County Housing Authority owns the property and will continue to manage all aspects of the property.

The best part about living in a RCAC is that you may move into an apartment while still healthy and independent and continue to live there even if you need some services brought into your home.

How does a RCAC differ from a nursing home?

Nursing homes offer 24-hour a day nursing care. Rooms are either single or share, as are bathrooms. Other living areas, such as living and dining, are shared common spaces.

RCACs, on the other hand, are separate apartment units with kitchen, bathroom, bedroom and living space. Each apartment locks to ensure tenant's privacy.

What has to happen before entering an RCAC (or starting to receive services)?

Before a resident may be "admitted" to Whispering Pines RCAC, there are several documents that must be completed by the facility and/or tenant:

- An assessment to help understand the needs of the tenant
- A service agreement to outline what services are being recommended and agreed upon
- A risk agreement to identify situations that could put a tenant at risk, how the tenant wants to manage the risk, and documentation that all parties understand and accept the level of risk.

If the provider recommends a certain level of service based on the assessment, does the tenant have to agree to receive these services?

No. The tenant is the final decision maker about what services they will receive.

If the tenant needs 30 minutes of service per day for several months, and then improves, can services be stopped?

Yes. One of the benefits of living at Whispering Pines RCAC is that the services are flexible & can be provided at the level the tenant needs as long as it doesn't exceed what is allowed in an RCAC.

What amount of services are allowed in an RCAC?

A RCAC can provide up to 28 hours per week of a combination of supportive, personal, and nursing services.

How do tenants pay the monthly rates for Whispering Pines RCAC?

Tenants can pay for the services with their own resources. Other options to cover the cost of RCAC services may include long term care insurance, if available, or Family Care services, if eligible.

The Aging & Disability Resource Center staff will discuss Family Care options and eligibility standards with tenants in more detail.

If you have additional questions about RCAC services, please call Carrie Mahlum or Wanda Plachecki at 786-1400.
